

Waterhouses Parish Council

CONTROL OF DOGS ON THE SPORTS FIELD & PLAY AREAS

The parish council has been forced to introduce new rules to protect all of the users of the Sports Field and Play Areas in the village.

It has received ongoing reports of dog excrement being left in these areas, with children being exposed to contamination and distress.

This problem is health threatening, anti-social and totally selfish.

Please keep your dog on a lead at all times and pick-up any mess that they leave. Bins are provided for the waste, please use them.

The council will monitor the situation closely and if the problem continues, it will consider a complete ban on dogs using the fields.

Prosecution will be pursued of those owners who fail to control their dogs and remove their waste.

We ask that everyone considers others when allowing their dogs into these areas.
